

e-bikes 2017

EUR | E

Every trip a pleasure.

Every E-biker is different. But there is one thing they have in common: the longing for a fresh breeze in the face, relaxing activity and freedom with a wide operating range. No matter whether from A to B, for shopping, or to work – on a FLYER E-bike, the routes becomes shorter, flat and run.

Nine good reasons to buy a FLYER e-bike

1

Guaranteed Swiss quality with the best product warranty

As an exclusive e-bike manufacturer from Switzerland, we specialise in the production of premium e-bikes. As a full-range supplier we fulfil every purpose and the most varied demands with our individual and extremely wide range of e-bikes. The high level of quality of FLYER e-bikes is a result of our clear focus on e-bikes and our many decades of know-how.

As a Swiss company we have internalised the value of premium quality, and it goes without saying that we offer our customers e-bikes of the utmost excellence. This is reflected in our exceptional, long-term FLYER warranty.

More on FLYER:

www.flyer-bikes.com/int/range

More on the FLYER warranty:

www.flyer-bikes.com/int/find-a-dealer/flyer-guarantee

*Except FLYER e-bikes of the Mountain segment (3 years).
You can find information about the terms of warranty on our
website: www.flyer-bikes.com/int/find-a-dealer/flyer-guarantee

2

Long service life & Services

In addition to the unique FLYER warranty and long service life of FLYER e-bikes, we guarantee that replacement parts and batteries will be available for many years. To provide the longest possible service life for your FLYER e-bike, we recommend that it is serviced regularly by your local FLYER dealer.

More on long service life and services:
www.flyer-bikes.com/int/find-a-dealer

3

Comprehensive dealer network

More than 1000 experienced FLYER dealers are available to answer our customers' enquiries. This ensures that authorised FLYER dealers are available in all regions. Simply enter your place of residence on our website to see a list of dealers in your area who can provide competent advice relating to our e-bikes. It is best to make an appointment for a test ride with one of our many dealers.

FLYER dealers in your region:
www.flyer-bikes.com/int/find-a-dealer

4

Test & Smile

Looking for an easy way to test ride a FLYER e-bike in your area? Not a problem! In addition to our comprehensive network of dealers, FLYER is also represented at various events and trade fairs in Germany, Austria and Switzerland. You are sure to find us at an event in your local area.

Nine good reasons to buy a FLYER e-bike

5

FLYER experience

From test rides and FLYER rental to our popular all-inclusive offers and variety of suggested tour routes, we offer a wide range of options for you to experience FLYER in Huttwil - whether at a corporate or group event or on a family excursion. We also offer exciting tours of the factory.

Find out behind-the-scenes information about how FLYER e-bikes are produced and learn interesting facts about the history of the e-bikes and the environmentally-friendly factory building, constructed to the Minergie-P standard.

Experience offers:
[www.flyer-bikes.com/
int/experience-the-flyer/](http://www.flyer-bikes.com/int/experience-the-flyer/)

6

Stylish riding enjoyment

FLYER's goal is to offer our customers maximum riding enjoyment, which is why we place the utmost value on perfect ergonomics and premium comfort for our e-bikes. The outstanding riding characteristics are a result of the combination of the utmost safety and stability with easy handling. Particular attention is also paid to aesthetic aspects and FLYER e-bikes are impressive with their carefully thought out and stylish premium design concept across all series. FLYER offers the appropriate e-bike for every taste.

E-bikes:
www.flyer-bikes.com/int/range

7

Optimum range

The range of an e-bike is an important factor for enjoying longer excursions, and is influenced by various factors such as the road surface, total weight, tyre pressure, incline, temperature, riding style, etc. Whether a FLYER e-bike is used for tours, your journey to work, or for overcoming great differences in altitude, we provide the right e-bike for every need. With each e-bike ideally adapted to its area of use, you can easily cover long distances and master great differences in altitude.

More information:
www.flyer-bikes.com/int/range

8

Coordinated accessories

The quality of our e-bikes is further emphasised by accessories in the FLYER look that are perfectly coordinated to each e-bike. The varied, premium-quality and successful FLYER accessories set accents and provide additional practical benefits – whether on tours, for everyday riding, or in the mountains.

Current range of accessories:

www.flyer-bikes.com/int/flyer_accessories

9

State-of-the-art technology

FLYER exclusively develops and installs high-quality components. As a full-range supplier in the e-bike sector, we provide a drive for every need and every terrain that has been ideally calibrated for the e-bike series in question. We have developed our own brand-new technology, FIT (FLYER Intelligent Technology), to fulfil requirements to an even greater degree - both today and tomorrow.

Detailed information on our drives:

www.flyer-bikes.com/int/find-a-dealer/flyer-components

www.flyer-bikes.com/fit

FIT – FLYER Intelligent Technology

Intelligent on the road.

FLYER positions itself as a developer of innovative premium e-bikes. This can not only be seen in each individual component, but also in their interplay. Thanks to FLYER Intelligent Technology (FIT), harmonious integration and perfect tuning mean that the individual components are in constant and precise communication with each other, which allows the FLYER e-bike to perform at its best at all times. Whether an e-mountainbike with strong climbing capabilities, a comfortable touring bike, or a stylish and robust urban e-bike, FIT turns the FLYER e-bike into a bike that thinks for itself.

The interplay of the usual FLYER e-bike attributes of safety, stability, comfort and a high level of functionality, combined with ease of use, provides the user with an outstanding riding experience. The combination of these unique features with the FIT-specific components to form a whole makes FIT the ultimate quality label that focuses on customers' needs while also looking to the future.

MOUNTAIN e-bikes

Uproc7

The E-Fully for the highest demands and ultimate riding enjoyment. With FIT.

Whether downhill or along a challenging trail, whatever the terrain and however large the obstacles, this E-Fully transforms even the most impossible routes into a play area. The FLYER Uproc7 is an e-MTB specifically designed for mountainbike enthusiasts for whom no tour is too difficult. In combination with FLYER Intelligent Technology (FIT), this FLYER e-mountainbike exceeds every demand that can be made of an E-Fully. Thanks to the two-gear motor, this series also boasts outstanding climbing capabilities.
